(54) Title: APPARATUS FOR SUPPLYING POWER, BACKLIGHT ASSEMBLY AND LIQUID CRYSTAL DISPLAY APPARATUS HAVING THE SAME

(57) Abstract: Disclosed are a power supplying apparatus, a backlight assembly and an LCD apparatus having the same. A control section (600) outputs a switching signal (601) so as to control an output of a constant current supplied to a lamp unit (20) in response to on and/or off signals and a dimming signal and a switching section (100) controls an output of a direct current voltage source in response to the switching signal (601). A power outputting section provides an alternating current voltage source having a constant voltage to the lamp unit (20). A sensing section (400) senses variation of a power supplied to the lamp unit (20) and a detecting section (500) compares a sensing signal (401) with a predetermined reference signal to output a detecting signal (501) to the control section (600), thereby maintaining the constant current to be supplied to the lamp unit (20). Accordingly, the LCD apparatus may prevent deterioration of an image and damage of circuit thereof.

INTERNATIONAL SEARCH REPORT

International application No.
PCT/KR 2003/001695-0

CLASSIFICATION OF SUBJECT MATTER

IPC⁷: H05B 41/392, G09G 3/36

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC⁷: H05B 41, G02F 1/133, G09G 3/36, H01J 61, H01J 63

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

EPODOC, WPI, PAJ

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
Y	JP 09 073989 A (MURATA MANUFACTURING CO) 31 July 1997 (31.07.1997) (abstract). [online] [retrieved on 2004-06-17]. Retrieved from: EPOQUE PAJ Database	1,2,4-10,13, 15-17

☐ Further documents are listed in the continuation of Box C.

☒ See patent family annex.

* Special categories of cited documents:

„A“ document defining the general state of the art which is not considered to be of particular relevance

„E“ earlier application or patent but published on or after the international filing date

„I“ document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

„O“ document referring to an oral disclosure, use, exhibition or other means

„P“ document published prior to the international filing date but later than the priority date claimed

„T“ later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

„X“ document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

„Y“ document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

„&“ document member of the same patent family
